Subject: Microsoft Settlement

To Whom it may Concern;

The proposed settlement in the antitrust case against Microsoft does not reprimand Microsoft's past illegal behavior, nor does it prevent or account for such behavior in the future. As a consumer of software products, this is disappointing and disturbing. As a software engineer, this can endanger my ability to work in my chosen field. The Proposed Final Judgement also has many openings similiar to the first agreement with Microsoft. I cannot support this judgement in its current form, and sincerely wish that you would reconsider this settlement.

Thank you,

Matthew A. Miller
